Essentials

Gelish® System

FOUNDATION - Soak-Off Base Gel

Creates the adhesive bond between the nail plate and gel products without damaging the nail plate. Works as a base for Gelish® Structure or Gelish® Soak-Off Gel Polish. Cures: 5 seconds in LED 18G Light; 10 seconds in LED Light; 1 minute in UV Light.

01245 15 mL - 0.5 Fl. Oz.

TOP IT OFF - Soak-Off Sealer Gel

Seals your Gelish® Soak-Off Gel Polish to a high shine finish that will not dull, chip or peel. Removes with Soak-Off Gel Remover. Cures: 30 seconds in LED Light; 2 minutes in UV Light.

01246 15 mL - 0.5 Fl. Oz.

STRUCTURE GEL - Soak-Off Repair Gel

Reinforces strength, enhances nail or repairs damaged nail plate. Removes with Soak-Off Gel Remover. Cures: 30 seconds in LED Light; 2 minutes in UV Light.

01247 15 mL - 0.5 Fl. Oz.

pH BOND - Nail Prep

An essential dehydrator that can be used prior to any base coat, acrylic, gel nail, nail adhesive, tip application or nail strengthener for optimal performance.

01206 15 mL - 0.5 Fl. Oz.

NOURISH - Cuticle Oil

Rehydrates and restores essential oils in cuticles and skin surrounding the nail with a unique blend of Grapeseed Oil, Kuku Nut Oil, Sesame & Vitamin E.

01207 15 mL - 0.5 Fl. Oz.

MINI BASIX KIT

INCLUDES:

VITAGEL® - LED/UV Light Cured Nail Strengthener

VitaGel's intensive soft gel formula is the most effective nail strengthening regimen yet. The micro-suspension technology stores molecules of vitamins A, B5 and E within the exclusive gel formula for a continuous release of nutrients into the nail bed for up to 14 days. The combination of vitamins is specially formulated for the ongoing absorption of keratin into the nail plate.

- Strengthens natural nails
 - Protective layer prevents splits, chips and peeling
 - Increases flexibility
- Enriched with Vitamins A, B5 & E
- Encourages healthy nail growth and flawless wear
- Extends wear of any nail lacquer from 2-3 days to 7-10 days
- Easy to apply and remove
- Versatile wear. To strengthen, can be applied:
 - Alone, for a clear finish
 - Under any nail lacquer
 - Under any gel polish

VITAGEL® - Nail Strengthener - LED/UV Light Cured

Strengthens & protects natural nails. Perfect for maintaining healthy nails. Eliminates peeling of the natural nail and gives you a strengthening base for any nail lacquer.

01150 15 mL - 0.5 Fl. Oz.

VITAGEL® - Recovery - Maximum Strength Formula

Enriched formula fortifies & repairs damaged nails. Great for people who are trying to repair and grow out their nails from acrylic use. All of the benefits of STRENGTH but a thicker formula for weak and brittle nails. Also includes an extra dose of vitamin!

01152 15 mL - 0.5 Fl. Oz.

Gelish® Hard-Gel

HARD GEL - LED Gel System

Reveal elegance with thin natural looking nails perfect for everyday wear. The pristine performance of these thick viscosity gels utilizes Gel Suspension Technology (GST) which assures total control and workability for the technician. The results are distinct and great for anyone. Gelish Hard-Gel is easy to apply, cures in 20 seconds, out performs the competition, and is versatile in wear for longer nail extensions, shorter nails or even toes.

LED Cured Gels bond to the natural nail using a fused keratin bonding system without the use of harsh acids for extreme retention to the nail plate. With vivid white, lucid clears, & radiant pinks that will define any look and stand Harmony apart from any other product. Gelish Hard-Gels create a stylish natural looking enhancement sure to compliment any fashion.

GEL BRUSHES

Our series of Gel Brushes are developed with the same highest quality as the Acrylic Brushes, but smaller. The compact handles provide ease and workability for the nail technician. Five different shapes and lengths provide versatility in application. Square shapes for the perfect pink and whites, ovals for overlays, and stripes for finer art details.

A #6 Gel Square

The ideal brush for creating clean smile lines, wiping down inhibition layers and creating all forms of artwork.
01383

B #6 Gel Oval

The finer point on this brush is ideal for sculpting, overlays, and detailed applications.
01382

C #7 Gel Square

Slightly larger for picking up more product. This brush is ideal for sculpting pink and white extensions.
01384

D Gel Striper

Ideal for creating stripes and lines, marbling and color dragging.
01381

E Mini Gel Striper

Ideal for creating finer details on all forms of artwork.
01380

Acrylics

Color Select Sculpting Powder & Liquid Fusion Sculpting Monomer

COLOR SELECT - Sculpting Powder

Developed with the latest acrylic technology assuring high quality performance and an ultra-fine, bubble free application. Color Select Sculpting Powder encompasses technology that provides nail technicians with perfectly matched polymer brighteners that will eliminate any discoloration between liquid and powder. They are UV Stabilized and contain Optical Enhancers that ensure colors are true and will not yellow, whites look whiter, pinks look natural, and clears look like glass.

01197	True Clear Powder	28 g - 0.8 Oz.
01200	True Clear Powder	105 g - 3.7 Oz.
01198	Pure White Powder	28 g - 0.8 Oz.
01201	Pure White Powder	105 g - 3.7 Oz.
01314	Ivory Natural Powder	28 g - 0.8 Oz.
01315	Ivory Natural Powder	105 g - 3.7 Oz.

DUAL COAT - Artificial Nail Sealer

Designed to protect the nails from discoloration from UV rays. It is sure to reflect the healthy appearance of pink & white nails or enhance the bright colors of any acrylic. DUAL COAT will air dry in 90 seconds to a hard plastic finish on any type of artificial nail.

01237 15 mL - 0.5 FL. Oz.

LIQUID FUSION - Sculpting Monomer

Fusion liquid is developed to brighten and stabilize the color of the Sculpting powders with Optical Enhancers. Utilizing optimized hybrid molecules resulting in the strongest bond to the natural nail without the use of harsh acid primers while maintaining the ultimate flexibility. Liquid Fusion has unique monomer technology that provides exceptional workability for perfect applications.

01192 120 mL - 4 FL. Oz.
01193 240 mL - 8 FL. Oz.

PRO BOND - Acid-Free Primer

A gentle acid free preparation product for the natural nail. It will promote adhesion of acrylics & gels to the natural nail.

01205 15 mL - 0.5 FL. Oz.

NAIL FORMS - For Acrylic & Gel Enhancements

Perfecto Nail Forms are designed to fit all nail types. Sure to hold in place and provide the perfect fit for beautiful nails. They provide consistent c-curves and have imprinted guidelines for consistent length and shapes. The locking tabs provide a controlled fit on all finger sizes. Perfecto Forms are versatile for all nail types and are sure to make sculpting easier than ever.

01239 100 Count
01208 300 Count

Finger nail makers for natural nail kit

NOURISH - Cuticle Oil

Rehydrates and restores essential oils in cuticles and skin surrounding the nail with a unique blend of Grapeseed Oil, Kukui Nut Oil, Sesame & Vitamin E.

01207 15 mL - 0.5 FL. Oz.

Files & Buffers

Shape, Smooth, Refine, Buff, Shine & Finish

FILES & BUFFERS

Hand & Nail Harmony's file collection is manufactured with superior paper resulting in a long lasting file and a much easier application for the technician. These files are going to last three times longer than the competitors files. The Hand & Nail Harmony files have a custom shape for fine detail outside work and a wider base for surface filing.

- A** 150/150 Grit File
Shapes the nail enhancement and is used for quick filing & surface smoothing
01209
- B** 180/180 Grit File
Used for refining and finishing any artificial nail surface
01238
- C** 240/240 Grit Thin Wooden File
For shaping the natural nail
01312

- D** 220/280 Grit Buffer
Finish buffs the nail and removes all demarcations
01211
- E** 100/180 Grit Buffer
Bevels the surface of the artificial nail, prepares the nail for high shine or gel finishes
01210
- F** 400/4000 Eco Shiner
2 sided high shine buffer that will create the perfect high shine finish
01212

Professional Tools

Implements, C-Curves & Marbling

IMPLEMENT TOOLS

Consolidate your nail kit and make it easier to travel and sanitize with the brand new Hand & Nail Harmony Professional Series Tools. Now you can have all of the necessities for creating the perfect c-curve, cleaning up cuticles and mixing colors wrapped up in four ergonomically designed, double-ended manicurist tools. All tools in the Hand & Nail Harmony Professional Series Tools have a lifetime guarantee along with a stainless steel, easy to disinfect surface. Carrying case included. Complete your nail kit with Hand & Nail Harmony Professional Tools.

A Stir Stick – Cleaner

Used to excess remove gel from the cuticles, this 2-sided stir stick is perfect for mixing and cleaning as well

01903

B Eco Pusher - Cuticle Pusher & Remover

Perfect for pushing back the cuticles, the Eco Pusher also removes any excess tissue and cleans up the excess skin

01904

C Tweezer – Pincher Stick

Assists with creating the perfect C-Curve, these ergonomically designed tweezers can also be used to apply small beads, sequins, rhinestones and studs for nail art

01902

D Spoon – Spoon Pusher & Cuticle Remover

This contoured pterygium remover makes for more precise cleanup of the cuticles. It can also be used as a cuticle pusher

01901

C-CURVE STICKS

Gelish C-Curve Sticks help create the perfect c-curve with gel or acrylic applications. These double ended dowels are specifically designed to create c-curves in 6 different shapes. The Gelish C-Curve Sticks are stainless steel, color coated, embellished with beautiful rhinestones and come with a protective carrying case. Use with any liquid & powder system or Gelish Hard-Gel to create even, perfect c-curves.

01907 6-PIECE SET

MARBLING TOOLS

Five double ended tools giving you 10 different sizes and effects. Use with any colored gels, acrylics or polish design applications. Perfect for marbling and etching. Blend colors, create zigzags and swirls; the different sized heads provide a variety of uses to create interesting nail art patterns and designs.

01908 5-PIECE COLLECTION

Apply Gelish

1 Shape the nail. Lightly buff the surface of the nail plate. Sanitize. Prep with pH Bond.

2 Apply a thin coat of Foundation. Cap free edge. Cure: 5 seconds in LED 18G.

3 Apply a thin coat of Gelish® Soak-Off Gel Polish color of choice. Cap free edge. Cure: 30 seconds in LED 18G. Repeat once for darker colors.

4 Apply a thin coat of Top It Off. Cap free edge. Cure: 30 seconds in LED 18G.

5 Remove tacky residue with Nail Surface Cleanse and Int-Free nail wipe.

6 Massage Nourish Cuticle Oil into skin surrounding nail plate.

Remove Gelish

1 Break top seal by gently roughing the surface with 100/180 Grit Buffer and remove shine.

2 Saturate cotton or nail wipe with Remover. Place cotton or wipe on foil. Wrap nail with foil. Soak for 15 minutes.

3 Remove foil. With orangewood stick, gently remove any remaining gel. Be careful not to press into the nail.

4 Lightly buff nail surface with a 220/280 Buffer.

5 Massage Nourish Cuticle Oil into skin surrounding nail plate.

Helpful Hints

Answers to Our Most Frequently Asked Questions

1. QUESTION: Is Gelish® Soak-Off Gel Polish used with a Base Coat?

ANSWER: YES. Gelish® Foundation Gel is new technology for gel adhesion. It is designed to create the bond between the Gelish® colors to the natural nail plate. There is no primer necessary in this system.

2. QUESTION: Do I use a Top Coat?

ANSWER: YES. Gelish® Top It Off is a soak-off gel top coat that seals the Gelish® Soak-Off Gel Polish. Top It Off cures under UV or LED Lights and has a long lasting high shine.

3. QUESTION: Do I need to cleanse the Top It Off?

ANSWER: YES. This product does require cleansing after curing. It will be sticky and appear not to be dry if this step is skipped.

4. QUESTION: How long does Gelish® Soak-Off Gel Polish last?

ANSWER: Gelish® will last until you soak it off. Gelish® does not peel, chip or fade. It performs like a gel and will provide up to 21 days of lasting color.

5. QUESTION: How do I remove Gelish® Soak-Off Gel Polish?

ANSWER: This product will soak off in 10 – 12 minutes. Lightly file over the top of the surface with a 100/180 Grit Buffer. Apply Gelish® Artificial Nail Remover to a cotton ball and place on the nail. Wrap the nail with foil and allow the nail to soak for 10 – 12 minutes. Then push loose product off with an orangewood stick.

6. QUESTION: Does Gelish® cause any chemical damage to the natural nail?

ANSWER: NO. This system uses only a pH balancing agent to stabilize the moisture level of the nail. Then the Gelish® Foundation Gel has adhesive properties that attract to the keratin in the natural nail, not causing any depletion, only acting as two-sided tape to adhere the Gelish® Soak-Off Gel Polish to the nail itself.

7. QUESTION: Can Gelish® Soak-Off Gel Polish be used over traditional gel or acrylic?

ANSWER: Yes, it can be put over traditional gel or acrylic as long as it is being applied to a rough surface filed with a 100/180 Grit Harmony Buffer or a 180 Grit File.

REMEMBER, you cannot soak off Gelish® Soak-Off Gel Polish from acrylics without removing the nail itself.

8. QUESTION: How many applications per bottle?

ANSWER: Most gel polish applications include a 2 coat application. The 15 mL bottles will do approximately 50 full sets.

9. QUESTION: How do I prep?

ANSWER: Lightly remove the shine using a 180 Grit Buffer, dehydrate the nail with Gelish® pH Bond.

10. QUESTION: Is the Gelish® Soak-Off Gel Remover drying to the skin?

ANSWER: The Gelish® Soak-Off Gel Remover is in the acetone family, but also has conditioners in it to eliminate drying of the skin or cuticles.
